Stories like yours

My name is Samer, I have been living in Lebanon with my wife Mona for almost 10 years now, during which our main priority is taking care of our only child Sara. Sara is showing all the signs of being bright and we are keen to provide her with as many opportunities as possible. We want to make sure we will always be able to give Sara the opportunities that support his growth and dreams.

We also have decided a year ago to start planning for our retirement. We had to look for a plan which helps us build up sufficient savings with potentially good returns over a period of 20 years, while still making sure Sara gets the best education possible.

We chose MetSeries, because not only does it allow us to choose the investment strategy based on our needs, but it also gives us financial comfort to ensure Sara's education fees are covered.

In fact, by contributing only USD 500 per month during a period of 10 years, MetSeries allows us to start putting aside some money, along with providing us with peace of mind, knowing that no matter what happens to us in case of illness, disability, or death; Sara's tuition will be taken care of, and my family will be able to maintain the lifestyle they are used to.
