This is a marketing communication. Please refer to the prospectus of the UCITS and to the KID before making any final investment decisions.

Investment Overview

The Fund aims to preserve capital while seeking to maximize its investment return in US dollar over the short term. The Fund qualifies as a short-term variable net asset value money market fund under the European Money Market Fund Regulation. The Fund pursues an actively managed investment strategy and invests mainly in high-quality Money Market Instruments such as short-term debt securities of superior quality issued by governments, government-related entities and corporations, and commercial paper issued by first-rate companies, and certificate of deposit of prime banks.

Past performance does not predict future returns.

What are the Risks?

The Fund does not offer any capital guarantee or protection and you may not get back the amount invested. The Fund is subject to the following risks which are materially relevant: **Counterparty risk:** the risk of failure of financial institutions or agents (when serving as a counterparty to financial contracts) to perform their obligations, whether due to insolvency, bankruptcy or other causes. **Credit risk:** the risk of loss arising from default that may occur if an issuer fails to make principal or interest payments when due. This risk is higher if the Fund holds low-rated, sub-investment-grade securities. **Liquidity risk:** the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Such risk may be triggered by (but not limited to) unexpected events such as environmental disasters or pandemics. Reduced liquidity may have a negative impact on the price of the assets. Complete information on the risks of investing in the Fund are set out in the Fund's prospectus.

Glossary

Weighted Average Life: The average number of days or years to maturity for the underlying holdings. **Ongoing Charges Figure (OCF):** The Ongoing Charges Figure (OCF) includes the fees paid to the management company, the investment manager and the depository, as well as certain other expenses. The OCF is calculated by taking the relevant main material costs paid out over the 12-month period indicated and dividing them by the average net assets over the same period. The OCF does not include all expenses paid by the fund (for example, it does not include what the fund pays for buying and selling securities). For a comprehensive list of the types of costs deducted from fund assets, see the prospectus. For recent all-in annual costs, as well as hypothetical performance scenarios that show the effects that different levels of return could have on an investment in the fund, where applicable, see the KID. **Comparator:** Benchmark is used for comparing Fund performance, but is not a constraint to Fund Investment. **Average Credit Quality:** The average credit quality reflects the holdings of the underlying issues, based on the size of each holding and ratings assigned to each based on rating agency assessments of its creditworthiness. **Weighted Average Maturity** is the weighted average maturity at issue of the underlying holdings, on a market value basis, expressed in days. **Standard Deviation:** Measure of the degree to which a fund's return varies from the average of its previous returns. The larger the standard deviation, the greater the likelihood (and risk) that a fund's performance will fluctuate from the average return.

Important Information

This is a sub-fund ("Fund") of Franklin Templeton Investment Funds ("FTIF"), a Luxembourg registered SICAV. Subscriptions to shares of the Fund can only be made based on the Fund's current Prospectus and, where available, the relevant Key Information Document ("KID"), accompanied by the latest available audited annual report and the latest semi-annual report if published thereafter. These documents can be found on our website at www.ftidocuments.com, obtained, free of charge, from your local FT representative or can be requested via FT's European Facilities Service which is available at <https://www.eifs.lu/franklintempleton>. The Fund's documents are available in English, Arabic, French, German, Italian, Polish and Spanish. In addition, a summary of investor rights is available from www.franklintempleton.lu/summary-of-investor-rights. The summary is available in English. The sub-funds of FTIF are notified for marketing in multiple EU Member States under the UCITS Directive. FTIF can terminate such notifications for any share class and/or sub-fund at any time by using the process contained in Article 93a of the UCITS Directive. For the avoidance of doubt, if you decide to invest, you will be buying units/shares in the Fund and will not be investing directly in the underlying assets of the Fund.

Given the variety of investment options available today, we suggest investors seek guidance from a Financial Adviser.

Diversification: Up to 100% of the investments of the Franklin U.S. Dollar Short-Term Money Market Fund may be issued or guaranteed by sovereign governments of member states of the OECD, supranational entities, including most prominently instruments issued or guaranteed by the United States Government and its agencies and/or related entities, including but not limited to, the United States Treasury, the U.S. Federal Reserve, the Federal National Mortgage Association (FNMA), the Government National Mortgage Association (GNMA), and the Federal Home Loan Mortgage Corporation (Freddie Mac), the Federal Home Loan Banks (FHLB), and supranational organisations that the United States and at least one EU Member State participate in, including but not limited to the International Bank for Reconstruction and Development (IBRD or World Bank), the International Finance Corporation (IFC), and the Inter-American Development Bank (IADB). In addition to receiving a favourable assessment of their credit quality pursuant to the Management Company's internal credit quality assessment procedure, all investments at the time of purchase shall have a minimum long-term rating of A or better by Standard & Poor's Corporation ("S&P") or Moody's Investors Service, Inc. ("Moody's") or similar rating by any other internationally recognised statistical rating organisation, corresponding to a short-term rating of A-1 by S&P/P-1 by Moody's or equivalent or, if unrated, be declared to be of comparable quality by the Investment Manager.

The Franklin U.S. Dollar Short-Term Money Market Fund is a short-term variable NAV money market fund and as such is not a guaranteed investment; is different from an investment in deposits since the principal amount invested may fluctuate; does not rely on external support for guaranteeing the liquidity or maintaining a stable NAV per share; and any loss of principal is borne by the investor.
